For the reflowable eBook

The reflowable ePub3 format does support popup notes.

When you export from **InDesign** to ePub (reflowable), you have an option to convert your footnotes to pop-up notes.

This will take the notes from the foot of the page, wrap them in an HTML tag **<aside>** and add the necessary ePub3 classes in the HTML code. In fact you will get an attribute added to the hyperlinked number
